Music for Sight Singing is structured around organized melodiesdrawn from the literature of composed music and a wide range of the world's folk music. Real music exercises allow readers to practice sight singing and develop their "mind's ear" -- the ability to imagine how music sounds without first playing it on an instrument. The ninth edition continues to introduce a host of important musical considerations beyond pitch and rhythm- including dynamics, accents, articulations, slurs, repeat signs, and tempo markings. The book's arrangement of simple to complex exercises lays the foundations for success. Learning Goals Upon completing this book, readers will be able to: Fluently read rhythms in simple and compound meters, including those in relatively unusual, irregular, or changing meter signatures. Sight sing melodies in any major or minor key, and in any diatonic mode. Effortlessly read all four common clefs. Understand common musical symbols and terms. Recognize and sing important harmonic features such as dominant seventh and Neapolitan chords. Improvise effectively from a variety of background structures such as a harmonic progression or an underlying contrapuntal framework. Negotiate chromatic passages from simple embellishing tones and tonicizations to modulations to post-tonal music. NOTE: MySearchLab does not come automatically packaged with this text. Musical material specifically composed for the study of sight singing.

Sight Reading: the Rhythm Book is a graded workbook for instrumentalists and vocalists designed to develop sight reading and rhythmic skills by presenting a course of progressive lessons and studies specifically aimed at these areas. Many different rhythmic groupings and writing styles and clearly presented and analyzed. This book will provide invaluable assistance to all musicians and lead to a greater understanding of the fundamentals of rhythm. Through the development of the counting method employed in this book and the analysis of rhythmic structure-identification of the various notes, rests, groups and signs used-the student will attain greater ease and facility when approaching sight reading material.

Sight Reading for Classical Guitar (Level IV-V) is designed for grade school or university level in either private tutoring of class instruction and is intended to be used by guitar students on a daily basis. This volume, containing Levels Four and Five, continues the study of sight reading, providing material suitable for more advanced students. Both books can be used to establish a reading level for students entering a new environment of guitar instruction, whether it be private tuition or class lessons.

Play at First Sight is a unique and comprehensive approach to help improve sight-reading skills. It will strengthen your ability to recognize rhythms quickly and perform them as confidently as possible. The more you practice the exercises and variation possibilities on each page, the more at ease you will become at sight-reading rhythms. The enclosed play-along CD incorporates a variety of musical styles and can be used with many of the exercises throughout the book. Play at First Sight will be an invaluable tool in helping you to become a better sight-reader!

Students of music are faced with the challenge of developing their aural skills to the point at which they can see music on the page with thoughtful, trained eyes and hear it with their mind 's ear. Sight Singing Complete, leads students to this point by beginning with the familiar and moving gently toward the unfamiliar until they are transforming symbol into sound and improvising in all idioms. The 8th edition of Sight Singing Complete preserves the multi-faced pedagogical approach and the commitment to historical repertoire from the seventh edition. New to this edition is an integrated approach to rhythm and performance — This edition is unusual in that we not only expect student to master each skill by itself, we also expect them to integrate all three skills in carefully designed sequence of " Play + Sing " exercises adapted from 18th — 21st century instrumental and vocal repertoire.

Designed for course sequences in aural skills, Progressive Sight Singing, Third Edition, by Carol Krueger, presents students with the grammar and syntax of musical structure and prepares them to perceive that structure with both the ear and the eye. Divided into two parts, the text presents rhythmic exercises in Part I and melodic exercises in Part II. The two sections can be used concurrently over a four-semester course sequence, giving instructors flexibility to teach at a pace that suits the abilities and backgrounds of a particular class or course schedule. Features: a progressive approach introduces new elements one chapters at a time while reinforcing previously learned skills through graduated exercises, encouraging active practice ; An abundance of rhythm exercises eliminates the need for a separate rhythm text ; A variety of sight singing methodologies are accommodated throughout the text. New to this edition: Expanded and adjusted pacing of the rhythm sequence and an earlier introduction of simple meter aids in the development of the connection between sound and sight ; Additional solo, duet, and multi-voice melodic exercises enhance aural and reading skills ; Expanded appendices include suggested harmony-chord progressions ; A free and open-access Companion website (www.oup.com/us/krueger) offers recordings for aural dictation, solutions to exercises, flashcards, expanded vocal pitch exercises/graphs, and many additional melodic and rhythm exercises. -- from back cover.
