The transformation and insights of an acclaimed flamenco dancer turned world-renowned animal communicator and healer • Presents powerful case histories of animals with whom she communicated and treated • Offers instruction on how to establish communication with animals When Laila del Monte was a child growing up on the Balearic island of Formentera, she experienced a special bond with the animals that were a part of her life. Later, as she became entirely focused on her career as a flamenco dancer, she resisted those who told her that her true vocation was as a healer. But when her own health challenges jeopardized her dancing career, the healing energies she received from both her human and animal teachers raised her consciousness about the important insights animals have to offer on the state of our physical and emotional well-being. In this book Laila del Monte reveals how the unconditionally loving nature of animals is very often leads them to take on the physical pain and negative emotional experiences of the human beings in their lives. The animals absorb negative emotions such as guilt, anger, jealousy, and other issues that stop people from moving forward and reflect these back in their animal behavior. Through her work with countless animals suffering from behavioral disorders or who have been sick or injured, del Monte learned that the physical healing of the animals is directly tied to the emotional healing of the people they are close to. The stories and situations she shares in this book demonstrate that learning what animals have to teach us about our lives does not require any magical formula or laborious training--it is part of our natural birthright. We need only to revive our own deep intuition to restore this connection. The authenticity and loving nature of del Monte's approach is not only testimony to her dedication and amazing abilities but also shows us the way we can follow the same path simply and honestly.

Beyond the Flesh is a powerful, well-written book that makes the words of the Bible leap off of the pages, and bring you face-to-face with the inspiring reality of how you can live your everyday life in the amazing realm of the Spirit of God. This book will revolutionize your thinking concerning God's plan and purpose for your life and destiny and it will lead you to begin enjoying the freedom of a deeper intimacy with God. There is a "Life Discussions" guide following each chapter, so that, through open dialogue within discussion groups, the material is made even more relevant. The author, with striking imagery, explores the WHY regarding God's creation of man, the temptation and choices which lead to the fall of man, and, how Christ's redemption of man has placed us ALL on a new footing toward achieving God's glorious original purpose for having created us. In God's original purpose there is no room for selfishness, hatred, lack of forgiveness, greed, and other such things that are like them. But if we are to come into the true stature of who we were created to be, then each person that reaches that stature must first get beyond the life-crushing constraints of their own flesh. Beyond the selfish emotional demands of the flesh is the only way that any person can live a life in the spirit. Beyond the Flesh is a book that challenges each of us to get past our hurts, doubts, fears and anger; and just allow God to "Be-In-Charge" of our life, so that we can really come to know true success. This book really drives home the point that: God is 'Invisible', but not 'Absent, ' and He desires that we each have a personal relationship with Him. In this regard we truly are...not alone.

Animals ranging from mosquitoes to elephants use their own words to guide humanity to a deeper spiritual awakening. • Contains interviews with 25 professional animal communicators and over 100 different animals and animal spirits. • Provides a thrilling glimpse of the possibilities of direct animal-human dialogue. According to Echo, an Arabian mare, "Humans are beings of love who have forgotten what love is and who they are." Along with a host of other animal communicators, Dawn Baumann Brunke gives animals like Echo a voice--a direct line of communication to the human mind. Through Animal Voices, the animal kingdom delivers a message about deepening our spirituality and reconnecting with the web of life. Our earliest ancestors had an ongoing shamanic dialogue with the animal kingdom, but this ability has been lost to most in the modern world. Brunke provides the techniques to reopen these connections, reminding us that when we are open to communication with animals, we are open to deeper layers of ourselves. The main contributors to this book are actual animals, who reveal themselves to be sentient beings with their own thoughts, emotions, and spiritual reasons for being on the planet. How Brunke overcame her initial skepticism and learned to hear their voices is a fascinating story. Throughout Animal Voices the author integrates her own reflections with those of the animals she interviews. The result is something that will delight animal lovers and force skeptics to reconsider their ideas about the nature of animal consciousness and the possibility of telepathic human-animal communication.

As an animal communicator and psychic, I'm able to see, feel, hear, and know what an animal is communicating to me. Also, being clairvoyant, I can see an animal's aura and essence. I teach people in my workshops how to look beyond an animal's physical form and how to connect heart to heart with the essence of an animal. The key to hearing our animal companions' essence is to look beyond the body and to connect with the amazing soul of the being. The body happens to be a physical form that the soul has created in order to learn and to fulfill a purpose. Telepathic communication with animals is a natural way of communicating. It is like a telephone conversation between two people. The telephone wires are the available lines of consciousness open between us that make the call possible. Perhaps you remember the films, Men in Black I and II. They are not so far-fetched as you might think. In both films there's a pup named Frank. We could say his soul was wearing a disguise so that he could accomplish his mission on Earth without attracting a lot of attention. In this book, one dog's soul tells about being an inter-dimensional traveler while another discusses how difficult it was adjusting to his cat body because he's only lived on Earth twice. You will read about a groundhog who walked up to me and put his paw on my shoe and a hawk who flew to me after I had communicated with her telepathically.
