Bob Burns is a long-time member of The Mountaineers. He has taught classes in the use of map and compass since the late 1970s. Mike Burns is an avid climber. He has instructed climbing and navigation classes, and written articles for Climbing magazine. Part of the The Mountaineers Outdoor Basics series! Created for beginning-to-intermediate enthusiasts, this series includes everything anyone would need to know about staying safe and having fun in the backcountry.

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking

trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

This book examines the nexus between exploring and tourism and argues that exploration travel – based heavily on explorer narratives and the promises of personal challenges and change – is a major trend in future tourism. In particular, it analyses how romanticised myths of explorers form a foundation for how modern day tourists view travel and themselves. Its scope ranges from the 'Golden Age' of imperial explorers in the 19th and early 20th centuries, through the growth of adventure and extreme tourism, to possible future trends including space travel. The volume should appeal to researchers and students across a variety of disciplines, including tourism studies, sociology, geography and history.

This study about David Livingstone is different from all other publications about him. Here, Livingstone is not the main topic of interest; the focus of the author is on nutrition and health in pre-colonial Africa and Livingstone is his key informant. David Livingstone and the Myth of African Poverty and Disease is an unusual book. After a close examination of Livingstone's writings and comparative reading of contemporary authors, Sjoerd Rijpma has been able to draw cautious conclusions about the relatively

favourable conditions of health and nutrition in southern and central Africa during the pre-colonial period. His findings shed new light on the medical history of Sub-Saharan Africa.

This open access two-volume set LNCS 11561 and 11562 constitutes the refereed proceedings of the 31st International Conference on Computer Aided Verification, CAV 2019, held in New York City, USA, in July 2019. The 52 full papers presented together with 13 tool papers and 2 case studies, were carefully reviewed and selected from 258 submissions. The papers were organized in the following topical sections: Part I: automata and timed systems; security and hyperproperties; synthesis; model checking; cyber-physical systems and machine learning; probabilistic systems, runtime techniques; dynamical, hybrid, and reactive systems; Part II: logics, decision procedures; and solvers; numerical programs; verification; distributed systems and networks; verification and invariants; and concurrency.
